

Soil, Soil, Everywhere

Type of soil	Made from	Size	Feel	Where found
silt	made of very tiny pieces of rock	microscopic	creamy	inland — away from water's edge
clay	made of very tiny pieces of rock	microscopic	sticky	inland
sand	made of different sized pieces of rock	tiny — about the size of a freckle	gritty	at the beach and inland
gravel	made of different sized pieces of rock	the size of a marble or larger rock	coarse	inland

After experimenting, we conclude that the soil at our school is made up _____ because _____
